## **DETAILED ACTION**

### ***Response to Amendment***

Applicant's arguments filed on Feb. 9, 2006. Claims 2, 13, 24 are cancelled.  
Claims 1, 3-12, 14-23, 25-36 are pending.

The following is an examiner's statement of reasons for allowance:

Claims 1, 3-12, 14-23, 25-33 are allowable over the prior art of record because the prior art of record fails to teach or fairly suggest recursively identifying and categorizing one or more database objects associated with a query, recursively retrieving an object definition for each identified object using a tool corresponding to the category with the identified object is connected to produce an ordered set of object definitions, wherein at least one of the database objects is a view and the object definition for the view is qualified with a containing database identifier, as detailed in independent claim 1 and similar as in claims 12, and 23.

Claim 34 is allowable over the prior art of record because the prior art of record fails to teach or fairly suggest inputting definition language specifying a database view identifier and with at least one directly or indirectly referenced database object unqualified with a containing database identifier, inputting a qualified show statement that identifies the database view identifier, as detailed in claim 34.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
